

Best Buys List – vehicle selection – Helpcard

An electronic Decision Aid (eDA) has been designed by the Department of Finance to assist in State Fleet vehicle selection. It provides a list of vehicle categories and the lowest whole of life cost vehicle options. You must choose from this list for all leased vehicles unless an operational reason requires purchase of a higher cost vehicle. In this case, you must justify and record these decisions, and forward to the Department of Education's Vehicle Management Office (VMO) for approval.

Step 1

Consult the best buys list to select your vehicle (follow link below)

<https://eda.contracts.wa.finance.wa.gov.au/index.jsp?CuaNumber=CUA37804Govt>

NOTE:

- If the replacement vehicle selected is not selected from the best buys list a justification to why will need to be submitted with your requisition to the VMO .
- If you are not set up as a user, you will need to register as a new buyer at <https://eda.contracts.wa.finance.wa.gov.au/registration.jsp?registration=New+Buyer+Registration>
